

# SoundWise™ FG 1240

## POLYETHYLENE FOAM FLOOR PROTECTOR

SoundWise™ FG 1240 is specifically designed to protect your floors and any other products while under construction. It stays in place under heavy use and construction conditions. The ribbed profile allows the floor to breathe but does not damage the finish. This foam protection can be used vertically or horizontally protecting any and all areas of new home construction or existing home renovations.

**APPLICATION:** Approved for commercial and residential flooring.

### APPROVED FOR USE OVER:

- Laminate
- Solid Hardwood Floating Floors
- Engineered Wood Floating Floors
